BAILEY

From Mt. Vernon Got Too
Much Mansfield Booze

(Mansfield News)

A fool and his money are soon parted at the police station and William Bailey learned this Tuesday morning when he had to give up \$4.60. He had come to Mansfield from Mt. Vernon and after taking a few drinks to the tune of Turkey in the Straw, he had to be brought to the halfway house in a cab by Officer Kelsner. He had \$4.65 and a part of a bottle of bug juice. He thought the best way to make a long story short was to plead guilty, so the mayor gave him the minimum. This left him with just five cents to get to Mt. Vernon. After coming down stairs, he asked to see the mayor again. When Bailey came down the second time he looked quite relieved as he told Capt. McClure the mayor had refunded two-bits of his fine. He was given this and left, promising never to let it happen again.

Lightning Kills Few

In 1906 lightning killed only 169 people in this whole country. One's chances of death by lightning are less than two in a million. The chance of death from liver, kidney or stomach trouble is vastly greater, as Robert Madsen, of West Burlington, Ia., proved. Four doctors gave him up after eight months of suffering from virulent liver trouble and yellow jaundice. He was then completely cured by Electric Bitters. They're the best stomach, liver, nerve and kidney remedy and blood purifier on earth. Only 50c at G. R. Baker and Co., Mt. Vernon, and F. Fink, Fredericktown.
